

Creative Camera Work for Everyone

How To Make Great Pictures in (Almost) Every Situation

Beginner's Photography Workshop

12:30-5 PM • Sunday • 18 March 2012

You finally got yourself that “fancy camera,” and you’re still just shooting on AUTO? ***Start taking creative control!***

Take an afternoon & learn how to properly—and easily—use your camera to get those great photos you always planned to take!

Get a LOT of useful information from a professional photographer who had years of experience. You'll get individualized attention & a chance to put your new skills to work!

The last hour of our afternoon, we'll practice shooting with your own cameras with instructor guidance.

You'll leave this workshop with new pics & new tricks, like:

- How to capture people's unique spirit & natural expressions
- How to operate your camera quickly & easily
- How to confidently take photos in different types of light
- How to create interesting, artistic images that tell a story
- How to handle your digital images after you shoot
- How to present your photographs for others to enjoy
- How to make family photography fun—every single time!

Spaces are limited to preserve our fun & friendly, small-group size!
To reserve your spot & for payment info, please email Alice at kuophoto@mac.com.

\$97 per student

Upon enrollment, you'll receive detailed information on our workshop location & meet-up place for shooting, as well as a list of what to bring.

Join us for an inspired afternoon!
